1	Julie Hanta RAZAFIMANAHAKA	Executive Director		Antananarivo	Julie has been director of Madagasikara Voakajy since 2011. She represents the organization within Madagascar and over the world. Daily, she maintains the links with our partners, raises funds for implementing our projects, and provides guidance to the team to best run our projects and achieve our mission. Passionate about bats and lemurs, she enjoys talking about Madagascar's amazing species to kids, youths and the wider communities.
2	Dr Daudet ANDRIAFIDISON	Community & Conservation Programme Manager	Communities and Conservation Programme	Antananarivo	Daudet is a biologist by training, with a particular interest on bats and their interactions with plants. Since leading the protected creation process within Madagasikara Voakajy in 2008, Daudet has slowly moved from pure biology to community development and conservation. With this perseverance, Daudet was awarded the Disney Conservation Hero Award in 2014. He continues to lead our community and Conservation Programme which ensures the creation and sustainable management of protected areas and community reserves.
3	Anna RAKOTOARISON	Monitoring & Evaluation Programme Manager	Administration	Antananarivo	Anna is in charge for the coordination and supervision of administration, finance and human resources within Madagasikara Voakajy. She manages the management, monitoring and evaluation of our project.
4	Raphali Rodlis ANDRIANTSIMANARILAFY	Species & Conservation Programme Manager	Species and Conservation Programme	Antananarivo	Raphali manages our Species and Conservation Programme. He is a biologist by training. He is mostly interested in chameleons and is part of Madagascar's Chameleon Specialist Group. Since 2017, In this role, he supervises research on other taxa such as lemurs, bats, birds and amphibians. His research focus includes species biology and distribution, and how they are harvested and used by people.

5	Voahirana Claudia RANDRIAMAMONJY	Project leader	Communities and Conservation Programme	Moramanga	Voahirana leads the Mangabe-Ranomena-Sasarotra project, the largest protected area we are in charge of. She also represents Madagasikara Voakajy in the Alaotra-Mangoro Region and ensures the coordination of our office in Moramanga. Voahirana is an agronomist but has also studied conservation and land management. With these skills, she designs and implements training program for community members where they can learn sustainable farming techniques adapted to the local conditions.
6	Fetra Arivony RAKOTONDRAZANANY	Baobab Project Officer	Communities and Conservation Programme	Morondava	Fetra is also a bat biologist by training but currently, he is running our baobab conservation initiative in the Menabe Region. Fetra's current challenge is to ensure that communities near the baobab resources benefit equitably from the baobab fruit harvesting and transformation processes. In that role, he collaborates with both public and private institutions.
7	Tonisoa Ivoandry RANAIVOANDRIAMANANTENA	Baobab Project Officer	Communities and Conservation Programme	Antananarivo	Tonisoa is the botanist of Madagasikara Voakajy. He is particularly interested on baobabs and leads our research projects in SAVA and DIANA Regions. His research focuses on the restauration of the Endangered Perrier's and Diego's baobab populations in the wild. In addition, he helps the project leaders at all the protected areas where we work in designing and starting forest restauration initiatives.
8	Harilefitra RATOVO- ANDRIANARISOA	Youths Initiative Officer	Communities and Conservation Programme	Moramanga	Harilefitra is the " <i>Lemurs for Youth and youth for lemurs</i> " project officer in the Mangabe protected area.
9	Jelot Hernandez	Freshwater Project Officer	Species and Conservation Programme	Port-Bergé	Jelot leads the freshwater species conservation project, in particular Pinstripe damba and Madagascar big-headed turtle in Lake Tseny, Port-Bergé District.
